

FIRE FACTS

- **FIRE IS FAST!**

- In less than **30 seconds**, a small flame can be out of control.
- A room can become life-threatening in **2 minutes**.
- A house can be engulfed in flames in **5 minutes**.

THINK ABOUT IT!

- **FIRE IS HOT!**

- Flashover can occur in 5 minutes.
- In 3 1/2 minutes, heat from fire can be over **1100°F**.
- In a room not on fire but near fire, the heat can be over **300°F**.
- The human body stops working at a temperature of **150°F**.

THINK ABOUT IT!

- **FIRE IS DARK!**

- Fire starts bright but quickly produces smoke so thick that a house will be completely dark, even with lights on.
- If you are asleep and do wake up, your house will probably be **pitch black**.
