

# ➤ Manual Dishwashing

Use a 3 compartment sink

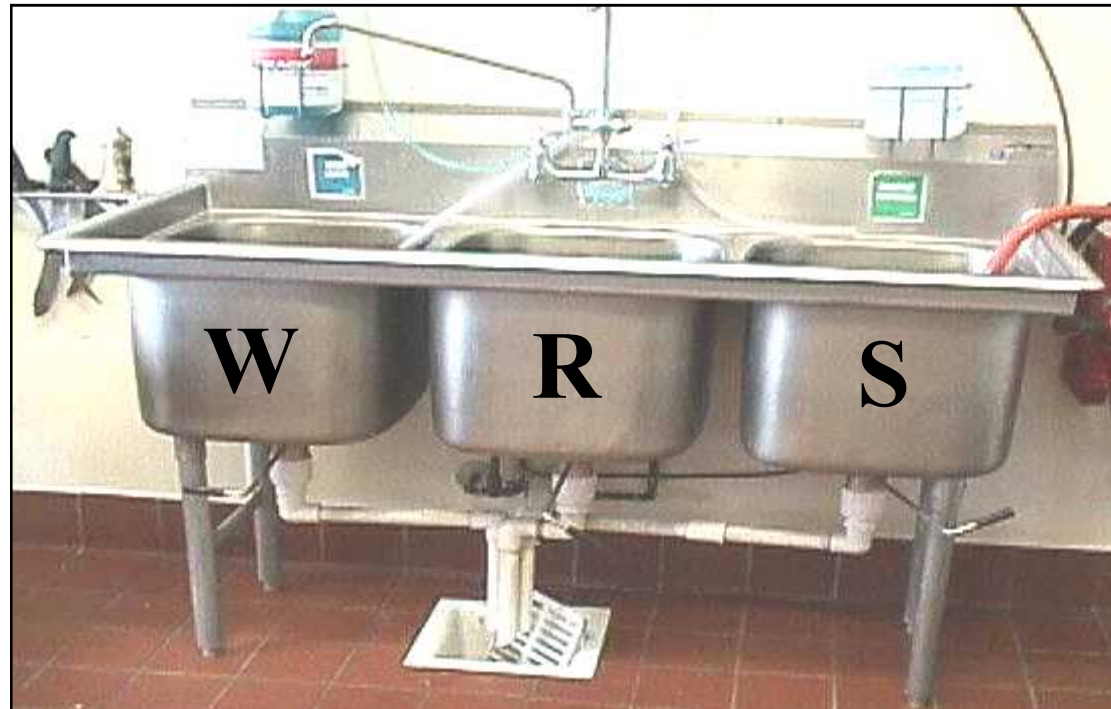

**Wash — Rinse — Sanitize**

Use only an approved sanitizer at the right concentration:

- Bleach (chlorine): 25–100ppm
- Quaternary ammonia: 200ppm
- Iodine: 12.5–25ppm

Use test strips to make sure you're using the right amount of sanitizer in the 3rd sink!

**Wash**  
dirty dishes  
in hot soapy  
water.

Don't add sanitizer.

**Rinse**  
dishes in  
clean, clear  
water.

Don't add sanitizer.

**Sanitize**  
dishes in  
warm water  
& sanitizer.

Don't add soap.

**Air Dry** dishes on a sloped drain board. Don't towel dry.
